Skills

- **Languages:** C, C++, JavaScript, SQL
- **Frameworks & Tools:** React.js, Node.js, Express.js, MongoDB, REST APIs, Git/GitHub
- **System Design:** Designed and implemented Low-Level and High-Level system architectures
- **AI:** Generative AI Integration, Prompt Engineering
- **CS Fundamentals:** OOP, DBMS, Operating Systems, Computer Networks

Work Experience

Full Stack Developer Intern | Naval Innovators Pvt. Ltd.

August 2025 – January 2026

- Developed and shipped full-stack features using the MERN stack (MongoDB, Express, React, Node.js), enhancing UI responsiveness and backend reliability across multiple modules.
- Actively participated in bi-weekly agile sprints; contributed to 30+ code reviews and performance optimizations that reduced average API response time by 20%.

Full Stack Developer | Hackathon Project

April 2024

- Built a secure, role-based digital voting platform supporting 1,000+ users with JWT authentication, role-controlled access, and tamper-resistant vote storage.
- Implemented real-time vote tracking using WebSockets, ensuring transparency and accuracy; the project secured 2nd place among 25+ teams in a state-level hackathon.

Projects

Resume Builder [↗](#)

- Engineered a **resume management platform** enabling users to **create, edit, and organize resumes** with **multiple templates and themes**, supporting **new and existing drafts**, **public/private visibility**, **AI-assisted content refinement**, and **PDF export**.
- Implemented **secure authentication and authorization** using **JWT** and **bcrypt** to protect user data.
- Designed backend services with **Node.js** and **Express**, persisting structured data in **MongoDB** and managing media assets through **Cloudinary**.

AI Interview Preparation Bot [↗](#)

- Designed an **AI-powered interview preparation platform** enabling users to **create practice sessions** based on selected roles.
- Implemented **role-specific interview questions** and **interview-style assessments** to simulate real interview scenarios.
- Generated **AI-driven feedback** identifying strengths and **improvement areas** for focused preparation.
- Enabled **adaptive question flow** to tailor sessions according to user performance.

Education

ABES Engineering College, Ghaziabad

B.Tech in Artificial Intelligence and Machine Learning

2023 – 2027

CGPA: 8.14 / 10

Achievements

- Solved **600+ DSA problems** across LeetCode ([View Profile](#)), CodeChef (**200+**), and GeeksforGeeks ([View Profile](#)), strengthening algorithmic problem-solving skills.
- Selected as a **Contributor at GirlScript Summer of Code**, collaborating on **open-source projects** through bug fixes and feature enhancements.
- **Google Girl Hackathon: Semi-finalist**, shortlisted among **300+ teams** after clearing multiple national-level technical evaluation rounds.
- **BNY Mellon Innovation Challenge: Semi-finalist**, ranked among the **top teams out of 200+ participants** for technology-driven solution.
- Completed a **4-week AI Azure Internship (June–July 2025)** under a **Microsoft initiative**, implemented by **Edunet Foundation** in collaboration with **AICTE** ([View Certificate](#)).
- Achieved **COMEDK AIR 3584** and secured **97 percentile in CUET** among nationwide candidates.

Certifications

- **India AI Impact Buildathon 2026**, National AI innovation challenge by **GUVI & HCL** ([View Certificate](#)).
- Completed **Generative AI Mastermind**, covering **prompt engineering and LLMs** ([View Certificate](#)).
